

CDP wants to employ as soon as possible and for a period of at least two years
A FEMALE MOTHER AND CHILD HEALTH CO-ORDINATOR/TRAINER
for the DHAMAR RURAL HEALTH PROJECT, YEMEN ARAB REPUBLIC

The project aims to contribute to the improvement of the health condition of the rural population in Dhamar Governorate.

Task description

- Co-ordination of the selection, training and supervision of Traditional Birth Attendants (TBAs) and female Primary Health Care Workers (PHCWs).
- Selection of trainers for TBAs and female PHCWs.
- Organisation of refresher courses for Health Centre staff, in particular regarding Mother and Child Health (MCH).
- Organisation and supervision of the MCH activities in the Health Centres.

Needed is someone who is good in both Arabic and English. She must be able to drive a car or be willing to learn it.

As a basic qualification we think of a female doctor, public health nurse, nurse/midwife or health visitor.

Candidates with a post-graduate qualification in community health, Mother and Child Health, management or teaching/training will be preferred.

For information/application contact Consultants for management of Development Programmes, Achter Clarenburg 25, 3511 JH Utrecht, Holland. Tel. 030 313865.

Local hosts are the Mexican Society for Public Health.

**Courses at the School of Public Health
University of California, USA**

Degree courses in Master of Public Health (MPH) and Doctor of Public Health (DrPH) are offered by the School of Public Health of the University of California with special reference to international maternal and child health. The courses are open to health professionals (physicians, and nurses) and to non-health professionals with appropriate experience in developing countries.

The course programme lasts for 1–1½ years depending upon the student's background

For details write to: Dr Derrick B. Jelliffe, Division of Population and Family Health, School of Public Health, University of California, Los Angeles, CA 90024, USA.
